PROFILE

Industrial Design MDes with nearly 2 years of enterprise AI product design experience at China Mobile Cloud and 6 months of automotive HMI internship experience. Strong in product thinking, interaction design, design systems, information visualization, AI tool workflows and English communication. Able to translate user needs, business goals and technical constraints into implementable product experiences.

EXPERIENCE

China Mobile Cloud Capability Center | Product Assistant Engineer

Jul 2024 - Present

- Designed enterprise AI product experiences for Zhanlu AI IDE, intelligent testing platforms, R&D; efficiency dashboards and TokenHub usage analytics, turning business goals into flows, prototypes and deliverable pages.
- Independently delivered interactive dashboard and front-end page solutions for R&D; efficiency, internal TokenHub usage and operational data visualization.
- Built 0-1 web UI guidelines, icon components and reusable design assets; converted visual standards into code-based assets to improve consistency and design-development collaboration.
- Supported AI-powered communication workflows and product materials for Mobile Cloud conferences and the Suzhou Token Conference.

Luxoft, Shanghai | Automotive HMI / UIUX Designer

Oct 2023 - Jan 2024

- Designed high-fidelity BMW concept HMI route interaction screens and 10 functional interface icons.

APTIV, Suzhou | Automotive HMI Designer

Apr 2023 - Sep 2023

- Developed HMI design strategy from user journey touchpoints; completed information layouts, prototype tests and high-fidelity specifications.
- Researched Tesla, Xpeng and AITO central-control HMI systems, producing a 70+ page UX analysis report and 3 English competitor/technology reports.

TCL Industries, Shenzhen HQ | Graphic & Mobile UI Design Intern

Jul 2022 - Sep 2022

- Delivered mini-program UI, printed exhibition stands and nearly 10 online/offline posters for corporate culture campaigns.

SELECTED PROJECTS

- Enterprise AI Platform Design: AI IDE, intelligent testing, quality management, R&D; efficiency and enterprise AI usage monitoring.
- R&D; Efficiency & TokenHub Dashboard: visualized efficiency trends, Token consumption, department usage and model usage patterns for internal operations.

EDUCATION

Xi'an Jiaotong-Liverpool University

MDes, Industrial Design
Sep 2022 - Mar 2024

The Hong Kong Polytechnic University

Exchange Student, AI & Science Fiction
Jul 2023 - Sep 2023

Dalian Jiaotong University

BDes, Industrial Design
GPA 87.61/100, Rank 2/24
Sep 2018 - Jun 2022

CORE SKILLS

Product Thinking · UI/UX Design · Interaction Design · Design Systems · Dashboard Design · Information Visualization · HMI Design · UX Research · Visual-to-Code Workflow · AI Tool Application

TOOLS

Figma · Sketch · Photoshop · Illustrator · Midjourney · CapCut

LANGUAGES

Mandarin Chinese
English: IELTS 6.5, strong spoken communication

SELECTED AWARDS

CADA International Concept Design Award - Silver / Bronze
China College Students Computer Design Competition - National Second Prize
BICC China-UK International Creative Competition - Third Prize
Challenge Cup - Silver Award
